Restriction to one of the following inventions is required under 35 U.S.C. 129:

1) Group I, claims 16-26 drawn to a compound of formula I, classified in class 546, subclass 2.

2) Group II, claims 27-30 drawn to a pharmaceutical composition and method of using of compounds of formula I, classified in class 514, subclass 185.

The above delineated inventions are independent and patentably distinct drawn to totally different subject matter. The search for the above groups would not be co-extensive particularly, as to literature search required. Each of the above groups is capable of supporting its own patent. Therefore, restriction for examination purpose is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
